

HEAVY DUTY LIFT GATE SOLAR CHARGING SOLUTION

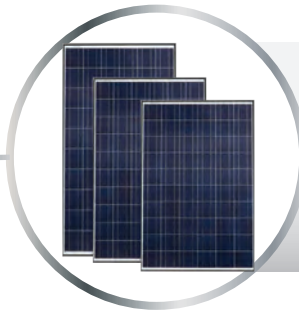

HARRIS BATTERY COMPANY

MAINTAIN YOUR FULLY-CHARGED LIFT GATE BATTERIES WITH SOLAR.

Extend Battery Life. Increase Operating Time.

SOLAR PANELS - Roof Mounted
Polycrystalline Solar Modules Available In Four Sizes:
50/60W | 90/100W | 120W | 140W

- Made with 36 high efficiency 6" cells
- Robust anodized aluminum frame with mounting holes.
- MC-4 connectors for easy plug-and-play use.

STEEL CASE CHARGE CONTROLLER
The Schneider Electric Solar C12 Charge Controller:

- PWM multi-stage, fast charging with 12A and temperature compensated capabilities for improved battery life.
- Robust construction with conformal-coated boards and powder-coated steel enclosure.
- Field adjustable voltage and battery set points.

COMPLETE KIT FOR EASY INSTALL
Complete Kit For Plug & Play Installation Includes:

- PV module with aluminum mounting bracket options.
- Charge Controller and Solar Connector.
- Fusing, DC wires and battery clamps.

Prevent Costly Downtime.
