

The **POWER** to MOVE!

24 VOLT MHE SYSTEMS

HARRIS
BATTERY COMPANY

MOVE
MORE

MOVE MORE for LESS!

POWER PROFITABILITY | POWER UPTIME | POWER PERFORMANCE

We have the power. Harris Traction Packs™ outclass big battery brands that only deliver ordinary performance:

- + Increase **PRODUCTIVITY** of motive equipment
- + **SAVE** at least **17%** on replacement battery systems

Your customers don't need to waste money or wait forever to get their motorized hand truck back to work. **Dealers like you can switch to Traction Packs™ to give your customers a clear competitive advantage.** They get more money in their pocket and much shorter lead-times to keep materials moving. They're paying about \$3,000, but now you can help them save around \$500. And instead of having equipment idle for months, now you can get them running in weeks.

MADE to EXACT MANUFACTURER SPECS

GOOD ENOUGH IS NO LONGER GOOD ENOUGH.

Don't settle for ordinary replacement battery products. Materials handling is demanding, so your customers deserve better than battery systems that are just about right or can be made to just about fit. Harris Battery controls our Traction Pack production 100%. Get spec, get what they need when they need it, and get value. Let's take a closer look:

- + **Delivers proven, fail-safe performance that's rigorously tested**
- + **Eliminates under- and over-charged batteries with intuitive/automatic chargers**
- + **Provides flexible and multi-benefit configurations to maximize ROI**
- + **Optimizes battery performance to extend battery life**
- + **Lengthens run times by maximizing restoration of battery amp hour capacity**
- + **Installs easily with no- and low-maintenance steel case options**

Specifications for Industrial Equipment Manufacturing and Material Handling

ACHIEVE MAXIMUM EQUIPMENT PRODUCTIVITY AND SAVE ON BATTERY COSTS.
